DOCTOR
ZUZU

Zuzu Toys has been producing high quality and healthy toys for children with the mission of developing its business and product in domestic and foreign market by using qualified work force with its accumulated experience from industry and production since 1978. In the retail sector in 2004 and in the production department since 2013, we have started to produce quality toys to support the mental, physical and social development of our children, who are our future.

We had the opportunity to apply the quality understanding we have gained from previous electrical heating and cooling sectors in plastic toy production. Zuzu Toys manufactures in accordance with TS 5217 and internationally approved EN71 standards and applies a complete quality system throughout the design and production. All our products

have been tested and certified in SGS laboratories, which are internationally recognized testing and certification bodies.

As Zuzu Toys, we have achieved a rapid acceleration in the sector with our accumulated experience in industry and production and we have an important market share by adding vision and value to the sector. We act with a vision of leadership that combines technology and innovation with production in the most effective manner, with a production approach that is sensitive to nature and people, and guides the sector.

We continue to bring our products, which we realize without compromising on design and quality, to the children of the world by taking corporate steps in accordance with our vision and mission.

Zuzu Toys 1978 'den bu yana sanayi ve üretimden birikmiş tecrübesi ile nitelikli iş gücü kullanarak, oyuncak sektörü içinde, iç ve dış pazarda işini ve ürününü geliştirme misyonuyla çocuklar için kaliteli ve sağlıklı uygun oyuncaklar üretmektedir. Perakende sektöründe 2004 yılında, üretim bölümünde ise 2013 yılından beri yarınlarmız olan çocuklarımızın zihinsel, fiziksel ve sosyal gelişimlerini destekleyici kaliteli oyuncaklar üretmeye başlamıştır.

Daha önceki elektrik ısıtma ve soğutma sektörlerinden edinmiş olduğumuz kalite anlayışını plastik oyuncak üretiminde de uygulama fırsatını bulduk. Zuzu Toys, TS 5217 ve Uluslararası geçerliliği onaylanmış EN71 standartlarında üretim yapmakta olup tüm tasarım ve üretim boyunca komple kalite

sistemini uygulamaktadır. Tüm ürünlerimiz uluslararası onaylı test ve belgelendirme kuruluşu olan SGS laboratuvarlarında test edilip onaylanmıştır.

Zuzu Toys olarak sanayi ve üretimden birikmiş tecrübemizle sektörde hızlı bir ivme yakalamış, sektöre vizyon ve değer katarak önemli bir pazar payına sahibiz. Teknoloji ve inovasyonu en etkin şekilde üretimle birleştiren, doğaya ve insana duyarlı üretim anlayışıyla, sektöre yön veren bir liderlik vizyonuyla hareket ediyoruz.

Vizyon ve misyonumuza uygun kurumsal adımlar atarak, tasarım ve kaliteden ödün vermeden gerçekleştirdiğimiz ürünlerimizi tüm dünya çocuklarıyla buluşturmaya devam ediyoruz.
